About The Expo

Plastech India Expo 2025 is a premier event for the plastics industry in India being held in Coimbatore, India from 11-12-13 December 2025, will be a three-day event that gathers industry professionals, service providers, machinery and equipment manufacturers, technology innovators, and related stakeholders. This unique platform will facilitate networking, knowledge sharing, and business opportunities in the Indian Plastic Industry ultimately benefiting all participants.

The Plastech India Expo 2025 is an event that brings together the manufactures and stake holders at different levels, such as communication, connectivity, security, safety, technology and interconnection between ecosystems aiming to create a premier platform for industry exchange and business cooperation.

The Plastech India Expo 2025 aims to stimulate investment in the Plastic industry, fostering a platform for local and national investors and experts to share knowledge, exchange business ideas, and ultimately drive business growth. By bringing together industry stakeholders, the expo aims to promote trade, improve competitiveness, and increase the overall value of the Plastic Industry.

Industry Overview

The plastic industry in India plays a very important role in the Indian economy and has seen a 23 fold growth since it was first introduced in 1957. The industry provides direct employment to about 40 lakh workers and is expected to grow at the rate of 6.5% CAGR from USD 49.50 billion in 2025 to USD 67.82 billion by 2030.

As demand for plastic products in packaging, automotive and construction is constantly on the rise, along with the use of environmental friendly plastic products, this sector has tremendous scope for business development and growth.

The Indian Plastic Market is highly competitive, with several domestic and international players operating in the space.

The development of the manufacturing sector as part of the Make in India initiative has also been a catalyst in the growth of the this market in the country. The increase in the use of plastic components and material by switching over from glass and other material is also one of the factors for the increase demand. The use of environmental friendly plastic is estimated to further strengthen the market growth in the forthcoming years.

Factors supporting the Growth of Plastic Technology sector

Government Initiatives and Policies such as Plastic Park Scheme, Make in India, GST Refroms

Growing Demand from End-Use Industries such as Packaging Industry especially in food and beverages sector, Automotive Industry with increased use of plastic parts, Construction Industry with boost in use of plastic pipe, fittings and other products

Increasing Focus on Sustainability and Recycling with waste management and recycling support, Use of bioplastics & biodegradable plastics offers new opportunities for the industry.

Changing lifestyles drive demand for plastic products.

Infrastructure Development: Improving transportation networks and logistics support the growth of the plastic industry.

India's strategic location and growing trade agreements create export opportunities for plastic products.
